PREFACE

In 2017, Mehmet Akif Ersoy University ELT Seniors prepared the *book Supplementary English Activities for Students of Grade 8*, which is available at https://egitim.mehmetakif.edu.tr/fle/supplementary_english_activities.html.

The seniors provided several positive comments and suggestions and expressed that they enjoyed designing the activities and learnt a lot while doing so. Therefore, this year as the lecturer of this course, I have decided to keep this activity as a requirement.

Mehmet Akif Ersoy University ELT Seniors (2018) prepared the activities on this book in partial fulfillment of the requirements for the Course entitled ‘Materials Adaptation and Evaluation’ during the Fall Semester in 2017. Working in groups of 3, the seniors designed these supplementary activities based on the units of the coursebook ‘*Ortaokul İngilizce 5 Ders Kitabı*’ [*Middle School English 5 Coursebook*] by Yalçın, Genç, Orhon, and Şahin (2017), which was written for fifth graders at the middle schools. As in the project last year, in order to ensure consistency both in design and content, the seniors were provided with a template, which, in most cases, limited their creativity as well as the other possible activities they were planning to design. However, considering the work they have done among many other assignments, presentations and responsibilities, I believe that they deserve special recognition and the right to feel proud of themselves.

I wish them every success and happiness in their future life and career.
